

NEWTECH®

Newtech, a subsidiary of M. Demajo Group, is one of Malta's leading privately owned family companies with a dedicated IT division. We specialise in distributing cutting-edge IT equipment and software to hundreds of IT resellers and enterprise clients across Malta and Gozo. Our mission is to provide timely, cost-effective, and innovative solutions that meet the evolving needs of businesses.

At Newtech, we pride ourselves on delivering products and expertise that align with our clients' goals, ensuring operational excellence and the highest standards of quality. Our commitment to innovation has made us a trusted partner for businesses looking to optimize their IT systems.

Our Promise

At Newtech, our commitment goes beyond supplying technology. We strive to be responsive, dependable, and accountable at every stage, from initial consultation and product selection through to implementation and ongoing support.

We believe in clear communication, practical advice, and service that puts our clients' interests first. By standing behind the solutions we provide and the relationships we build, we aim to be a technology partner our clients can rely on for the long term.

IT Hardware

Comprehensive Hardware Expertise

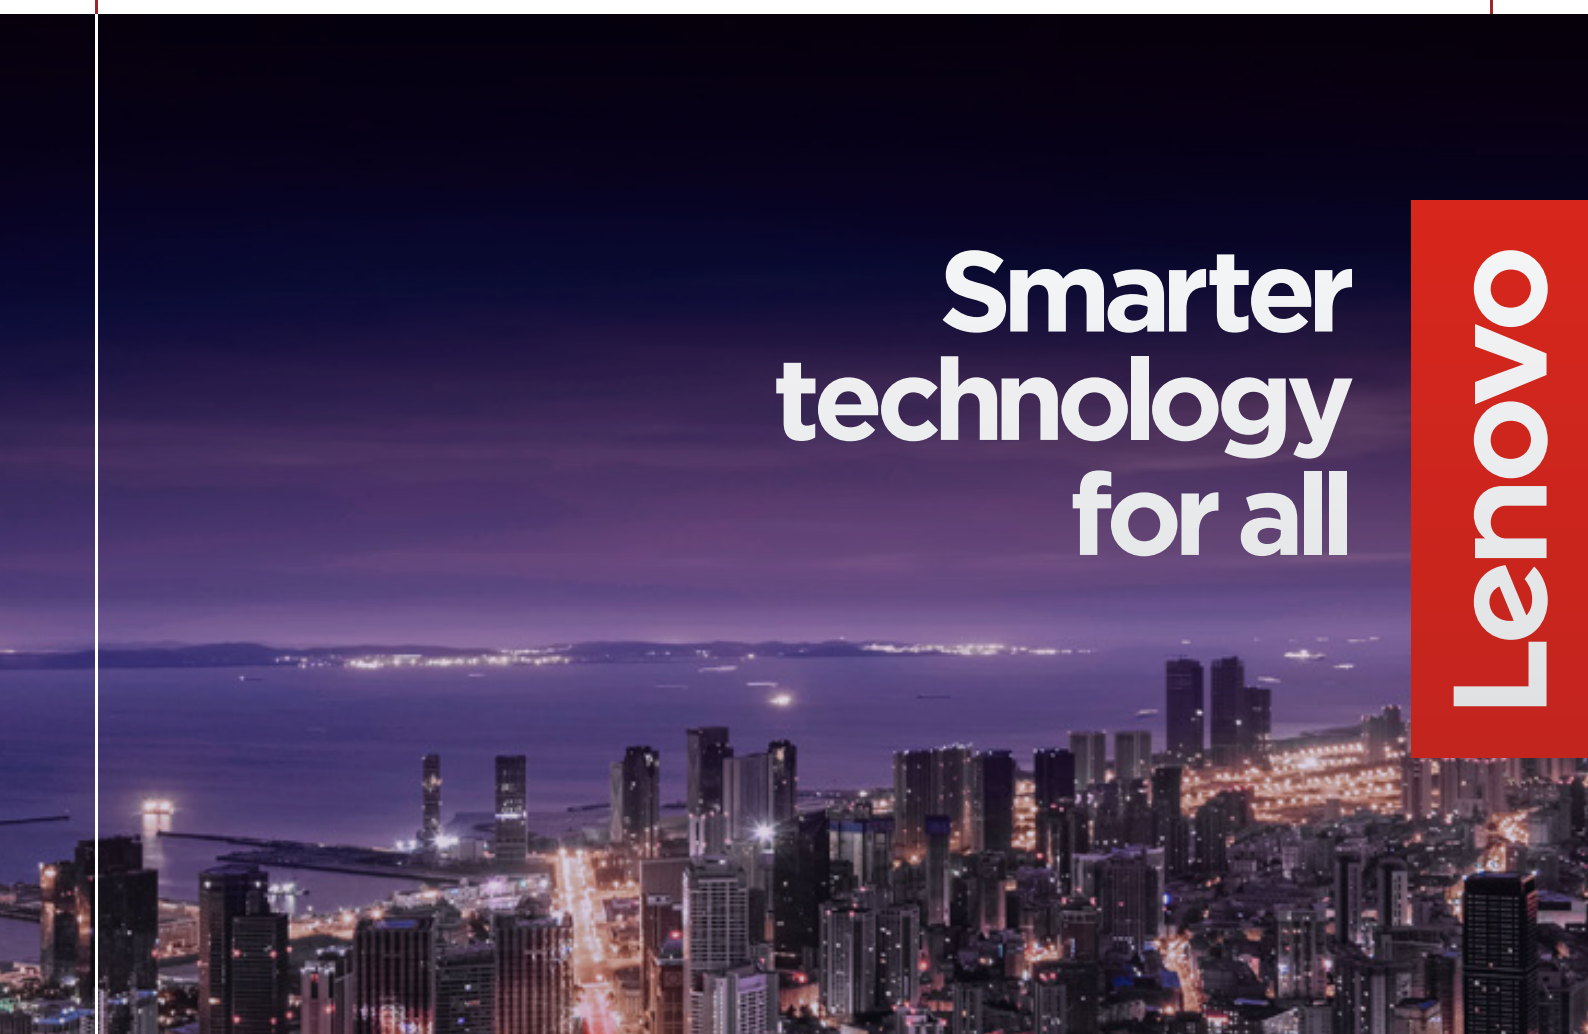

Newtech specialises in sourcing and distributing premium IT hardware from globally trusted manufacturers including Lenovo, Acer, Sandberg, and Razer. Our portfolio spans everything your business needs, from powerful workstations and reliable servers to enterprise laptops. Each brand is carefully selected based on rigorous quality standards to ensure maximum performance, durability, and return on investment.

Exclusive Lenovo Distribution. Unparalleled Local Expertise.

Newtech is Malta's exclusive distributor of Lenovo, a Fortune 500 global technology leader. This authorised partnership ensures that businesses across Malta access genuine, enterprise-grade Lenovo solutions backed by priority support and tailored expertise designed for local needs.

Enterprise-Grade Equipment Meets Exceptional Value

Newtech understands that IT hardware is the backbone of business operations. Whether you're building a new infrastructure, upgrading existing systems, or scaling to meet growing demands, we deliver cutting-edge hardware solutions backed by world-renowned brands and unparalleled local expertise.

Cybersecurity Solutions

Newtech supports organisations across Malta and Gozo with industry-leading cybersecurity technologies designed to strengthen their digital resilience.

Darktrace: AI-Driven Protection

Our flagship cybersecurity solution is Darktrace, the global leader in self-learning AI for threat detection and autonomous response. Newtech is the first and only Darktrace Elite Partner in the Mediterranean Region, allowing us to offer better pricing, priority access, and enhanced support to our partners and clients.

A Complete Portfolio of Cybersecurity Solutions

Alongside Darktrace, Newtech distributes a carefully selected range of complementary solutions including Bitdefender, NordStellar, KnowBe4, and Acunetix. This enables us to supply partners and businesses with a full ecosystem of technologies tailored to different security layers and requirements. Whether you're expanding your offering or strengthening internal protection, Newtech ensures you have access to scalable, reliable, and globally recognised cybersecurity tools.

Security teams are overwhelmed.

Today's threats are so fast-moving that they can take down entire data-centers in a matter of minutes. With these attacks getting more advanced by the day, and the digital business growing in scale and complexity, human security teams simply cannot respond to threats fast enough. Darktrace's Autonomous Response technology, Darktrace Antigena uses Cyber AI to calculate the best action to take, in the shortest period of time, to effectively respond to a cyber-attack.
